

Accessing Khan Academy- Students

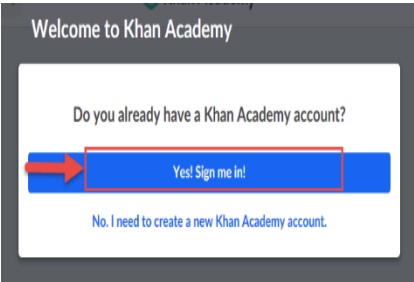

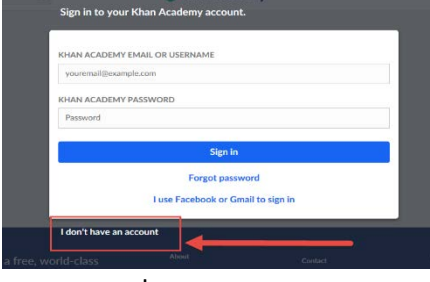

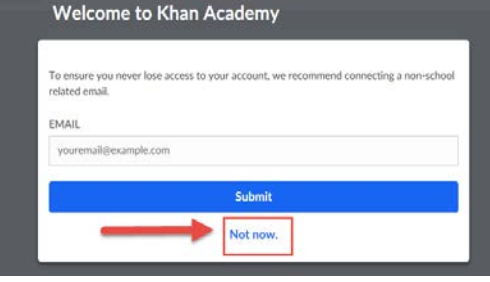

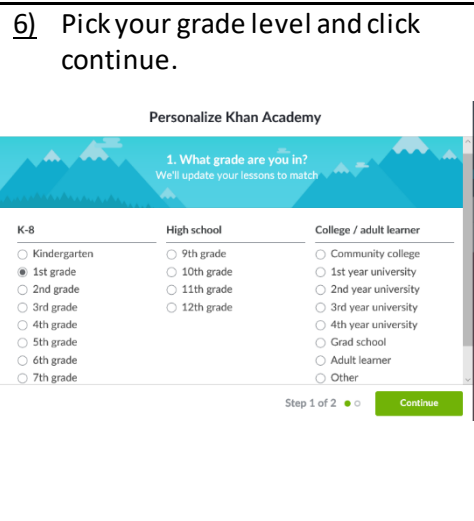

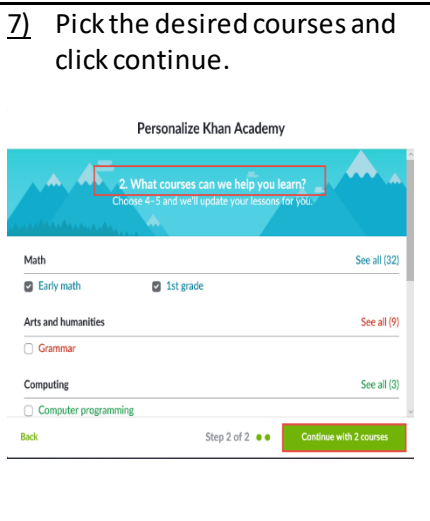

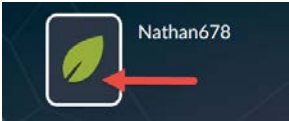

The *first time* you access Khan Academy you will need to follow these set up directions:

1) Log in to Clever using your Office 365 account. This can be done by going straight to Clever at <https://clever.com/in/pwcs> or by signing into your Office365 account, clicking on the waffle (application icon in the upper left hand corner) and selecting Clever from the list of applications.

Khan Academy ⓘ

2) Once you are logged into Clever, click on the Khan Academy icon.

<p>3) Click on Yes! Sign me in!</p> 	<p>4) Click on I don't have an account.</p> 	<p>5) Click Not now.</p> 
<p>6) Pick your grade level and click continue.</p> 	<p>7) Pick the desired courses and click continue.</p> 	<p>8) Pick a new avatar by clicking on the leaf. Not all avatars are available to you in the beginning. Click Save once you selected your avatar.</p> 

9) Students can start the courses assigned to them from Khan or teachers can assign lessons to the students. (Note – teachers cannot assign lessons to students until after they have logged in for the first time.)

My courses Edit

<p>1st grade See all (3)</p> <ul style="list-style-type: none"> ● Place value Start ● Addition and subtraction ● Measurement, data, and geometry 	<p>Early math See all (8)</p> <ul style="list-style-type: none"> ● Counting Start ● Addition and subtraction intro ● Place value (tens and hundreds) ● Addition and subtraction within 20 ● Addition and subtraction within 100
